NEGRINI JEWELLERY		
<i>The jewels are made with the traditional gold-casting method. Brass executed completely by hand if it is composed of more than one element. The stones (zircons or natural stones) are also hand-built. The jewels are in silver 925 per thousand, the highest quantity of pure silver that a jewel can have. Each jewel is stamped with the "925" mark. To give greater brilliance, the jewels are immersed in a Rhodium bath As required by law, they do not contain nickel and are therefore hypoallergenic, as they do not blacken the skin. They can be cleaned with baking soda or dish detergent.</i>
